

SMART INDIA HACKATHON 2025

- **Problem Statement ID** – SIH 25250
- **Problem Statement Title**-Government offices often suffer from low levels of productivity at the organizational, team and individual levels, but there are no online tools to set goals/ objectives, define and benchmark success parameters, track progress and calculate productivity levels at the aforesaid 3 levels. To address this management gap and improve productivity and employee engagement in government offices a suitable online tool/ module should be developed under the e-Office platform.
- **Theme**- Miscellaneous
- **PS Category**- Software
- **Team ID**- 95554
- **Team Name** – TECH TRACKERS25

Core Concept

AI-powered task & performance platform
Unified for Admin, Manager & Employee
Parichay SSO login + Paperless workflow
Web + Mobile dashboards
Integrated AI + Blockchain ecosystem

How It Solves the Problem

Automated task tracking & SLA alerts
AI-based analytics for insights & prediction
Fraud & burnout detection for better control
Blockchain logs ensure full transparency
Auto KPI dashboards for instant reports

Innovation & Uniqueness

AI Chatbot (DialogPT) – smart task queries
Sentiment AI (DistilBERT) – team morale check
Fraud Detection (IsolationForest) – anomaly alerts
Burnout Prediction – workload balance
Blockchain Audit – secure data integrity

Key Outcomes

30–40% faster workflows
92% fraud detection precision
85% sentiment accuracy
100% tamper-proof data
AI-driven transparency & efficiency

Empowering Government Workflows through Intelligent Automation

Frontend

Backend

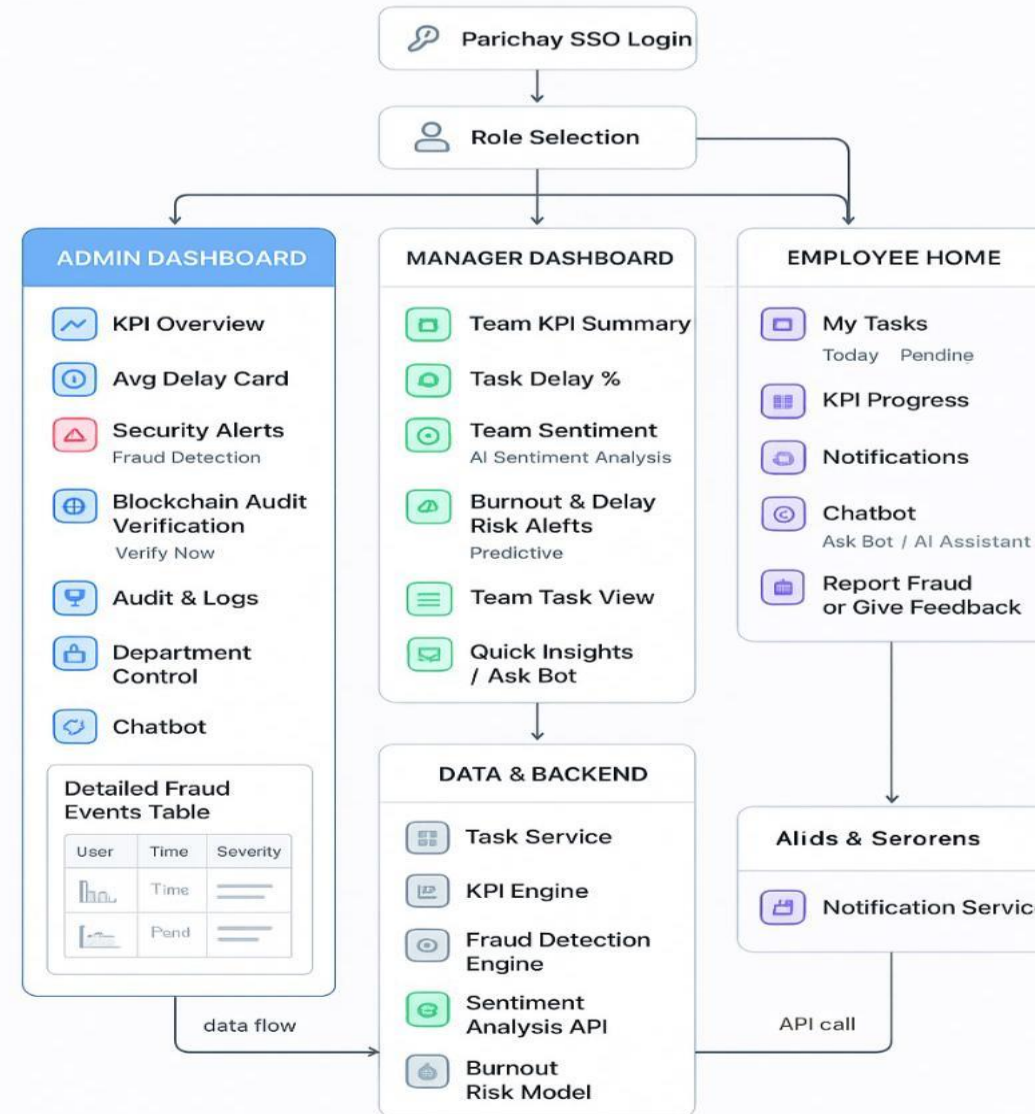

Database

AI/ML

Blockchain

Cloud &
APIs

Feasibility Analysis

Built on existing e-Office + Parichay SSO, easy adoption. Uses AI, Blockchain & secure APIs – fully scalable. Compatible with Web + Android platforms. Low infrastructure cost, deployable on NIC/AWS cloud. Ready for multi-department rollout (Gov, PSUs, Smart Missions).

Challenges & Risks

**Resistance to digital transformation from manual users.
Data security & privacy compliance (Gov cloud standards).
Need for initial user training & onboarding.
Integration delays with legacy e-Office systems.**

Strategies to Overcome

**Pilot → Feedback → Full launch (stepwise rollout).
NIC-compliant encryption + Blockchain audit for safety.
AI-driven training bot for onboarding & FAQs.
24×7 tech support & version upgrades.
Regular audits + user feedback for reliability.**

Social Benefits

Promotes trust & transparency in governance.
Improves employee morale & recognition.
Enhances citizen service delivery via faster approvals.

Potential Impact

Transforms manual offices → smart digital ecosystems.
Boosts efficiency, transparency & accountability.
Enables data-driven governance using AI analytics.
Builds a performance-focused work culture.
Bridges the gap between field staff & higher authorities.

Economic Benefits:

Saves time, paper & manpower costs.
Increases productivity & ROI across departments.
Reduces administrative delays and rework losses.

Environmental Benefits

Enables paperless, eco-friendly workflow.
Supports Digital India & Green Governance.
Lowers carbon footprint by minimizing printing & travel.
