LETTER OF APPRECIATION AND EXPERIENCE TO WHOMSOEVER IT MAY CONCERN

This is to certify that **Het Sanjaykumar Patel** served as a **Software Developer Intern** with FirstBookIt (also operating as SportsWalla) from **May 2026 to September 2026**.

During his association with us, Het worked as a full stack developer across our web application, mobile application and backend services, and was responsible for building and delivering several of the core modules of our platform, including:

1. The online booking engine, including guest booking, multi-slot booking and payment gateway integration with Razorpay;
2. A split-payment system allowing multiple players to jointly pay for a single booking, including shared payment links, payment holds and automatic refunds on expiry;
3. The Sports Owner, Manager and Administrator portals, covering slot and pricing management, payouts, coupons, approval workflows and analytics;
4. The tournament and scoring module, and the running club module with paid event registration and GPS-based run tracking;
5. Authentication using email OTP and Google OAuth, and a notification system with scheduled reminders;
6. Search engine optimisation, landing pages and the platform rebrand to FirstBookIt;
7. Backend performance improvements including pagination, caching, database indexing and query optimisation.

His work directly enabled our platform to move from an early prototype to a live, publicly available product on the web, the Google Play Store and the Apple App Store, with functioning online payments and venue management. He also resolved significant performance bottlenecks in the system, which measurably improved loading speed and the overall user experience of the platform.

Het consistently demonstrated strong technical ability, ownership of the modules assigned to him, and a willingness to deliver work within short timelines. His contribution was substantial and valuable to the growth of FirstBookIt during this period.

We place on record our sincere appreciation for his efforts and wish him continued success in all his future endeavours.

With best wishes,

Kirtan Kachhadiya
